

## DESCRIPTION OF GOODS

### 1. Vacuum Packaging Machine

Chamber Dimensions: 710\*710\*180mm, External Dimensions: 830\*1430\*1380mm, length of resistance 550 mm, resistance gap: 565 mm, Electric circuit: 380 V / 220 V, Vacuum Pump; 2,2 kW or 5,5 kW, The brand of engine is Gamak.

Electric Consumption: 2,2 kW or 5,5 kW, Vacuum Processing Duration: 20-40 second, Made of AISI 304 Quality Stainless Steel, stainless steel thickness; body and covers are 4mm, sides 2mm. Weight: 470 kg.
